both "medigap" and medicare advantage plans are often referred to as "supplemental insurance" plans in medicare articles and literature

"the pill book guide to medication for your dog and cat" notes that dogs have been tested taking 20 mg per pound for 14 days and rarely suffered from overdose symptoms

just framing the words in my head made me smile, and my elation spread to include everyone in the little settlement.

data sources include mandatory reports of serious illness, injury or death, recalls that have taken place internationally, and information received from the community

cause you make me feel so brand new
and i want to spend my life with you
since,
